THE 69TH SESSION

The 69th Session of the Model United Nations of the Far West will convene on **Friday April 12 – Tuesday April 16, 2019**, near San Francisco, where the United Nations was founded and where five years later the first MUNFW conference was held. MUNFW takes pride in its academic excellence, the quality of its preparatory materials, its interdisciplinary approach to international relations and its focus on ensuring authenticity of the simulation. It also takes pride in the conference design that encourages student participation in outstanding conference facilities.

The consistent quality of this program is the result of the faculty’s commitment, leadership and oversight of the program both before and at conference. MUNFW is an outstanding academic conference. Our delegates have gone on to careers at the United Nations, in the Foreign Service, in public policy and as leaders in business and civic life. The skills they gain during their MUNFW experience can be carried forward into a variety of careers into today’s increasingly global job market. Delegates collaboratively work on global issues, seek global solutions, and become aware of the many national interests to be considered.

Join the 69th Session of Model United Nations of the Far West for the ultimate Model UN experience on April 12 - 16, 2019, in San Francisco. For more information, go to www.munfw.org
